Paulette indicated the Committee would like to pay the entertainers; a token amount each week. There was a lengthy discussion, and it was estimated that another \$1000 would need to be added to the budget. Peggy will put in the request; the trustees indicated the budget for next year is basically done and we may not be able to add it at this late date. Peggy will see what the options are with the Village, and the committee needs to determine the amount to be given fairly, keeping in mind that some entertainment is a single person, and some is an entire choir.
